

Connect to your leads instantly.

Your lead, your sale.

PowerDialer™ Tool

iBoomerang's new PowerDialer simplifies all the facets of lead management while still serving as a comprehensive sales system. PowerDialer gives managers full remote oversight of their business, from lead distribution to their agents' or sales staff's calling schedule, with detailed full report capabilities to gauge productivity and effectiveness.

First Contact

The PowerDialer's revolutionary "first-to-contact" capability lets you be the first to call any prospect, any time, regardless of how often it has been sold by the lead source.

Automation

The PowerDialer greatly reduces the stress and hassle of lead management. Its automated processes ensure leads are properly managed, eliminating wasted time and results in increased productivity and efficiency.

Add and Manage Additional Users

Managing lead distribution has never been easier! You can add additional users to your account, assign leads and set agent or line preferences for each prospect. You can pause each user account independently of the other, so your business won't be slowed if one user is inactive.

Automatic Follow Up

Our automated call-back and follow up features mean you'll never miss an opportunity to speak with a lead. Schedule appointments days, weeks, months or years in advance and PowerDialer will call you at the time and date of the meeting. If you don't reach a lead, the PowerDialer will call back up to eight times at intervals you set, giving you the best possible chance to convert each prospect.

Custom Voicemails

Set up and record custom voicemail messages for prospects, leaving them an effective and informative sales pitch and allowing you to not miss out on a quality conversion opportunity.

NEW Calendar

Start every morning in your PowerDialer calendar system and you will never be late to another telephone appointment again! Now you can schedule each lead for a follow up call and the PowerDialer calendar will call you first for every appointment made. You can also add events that will keep you on track with your busy work schedule.

NEW PowerDialer Dashboard

Tracking recently received leads, updating your business calendar, and staying connected with all of your other iBoomerang tools have never been easier now that we have created the PowerDialer dashboard. Keeping you on one single easy-to-use platform is what iBoomerang is all about. This new feature helps you maintain speed and efficiency by keeping your online tools at your fingertips!
