

**Newsletters, promotions, thank-you cards, postcards, invitations and MORE at minimal cost!**

---

**Maximize your communication without the cost of printing or postage.**

## **Volume Marketing Tool**

Flyers and newsletters are the most effective ways of communicating, advertising and keeping in contact with your clients and staff. iBoomerang has taken that practice and made it electronic. The iBoomerang Volume Marketing Tool incorporates your photo or insignia, along with other biographical and contact information, to insure greater visibility to your clients.

With the iBoomerang Volume Marketing Tool, you can custom design or use our professionally designed templates to create your newsletter. Once completed, this tool then batches and automatically sends your newsletter at scheduled times. Corporate accounts also have the option of inserting compliant text or versions for their sales people, ensuring that industry or corporate standards will be maintained.

Marketing costs are drastically reduced since printed materials and postage are now obsolete. Generating new leads and advertising to existing clientele is a proven method of increasing your sales.
