

## Instant meeting power without leaving the office

### Reduce travel time and expense, increase client receptivity, with **iBoomerang Web Conference - Package Version**

Next client phone call, share your computer screen with a click of a mouse. Think of the savings as you present to as many as 3 participants at a time from your office or home!

iBoomerang's web conference tool lets you make presentations more effectively than if you were sitting side by side. Designed for easy client access, you maintain control of the meeting. Great for reviewing documents or spreadsheets, or to demo software, and our telephone bridge allows you to phone conference simultaneously.

Simple, fast and easy, it works on any computer, any Internet connection or modem for one low monthly fee.

The iBoomerang Web Conference Package Version is only for iBoomerang users who have purchased package deals.

## Boost your meeting power with a phone call!
